

# MEMORIAL BEACH VETERINARY HOSPITAL DENTAL CONSENT

## A basic dental prophylaxis includes the following:

Pre-anesthetic Injection	\$ 54.09
Anesthetic induction	\$ 90.55
General Anesthesia Isoflurane	\$ 173.07
Complete Dental Examination	\$ N/C
Dental Scaling & Polishing	\$ 90.40
Fluoride	\$ N/C
Antibiotic Injection	\$ 46.55
Nursing Care	\$ 43.75
Ward Care & Cleaning	\$ 31.59
Total	\$ 530.00

## **BASIC CARE & DIAGNOSTICS: No Dental Will Be Performed Without The Authorization Of The Following:**

- **X-rays may be needed** if an oral exam is insufficient to discover the full extent of disease & to determine appropriate therapy. **Initial**  
**I authorize** X-rays, if needed to determine extent of disease @ \$ 39.90 each **(required)** \_\_\_\_\_
- **Loose teeth** act like splinters in the mouth to hold in infection & dissolve bone (sometimes leading to fractured jaws). No pet should be exposed to anesthesia only to leave loose, easily extracted teeth.  
**I authorize** extraction of loose teeth @ \$ 23.00 each **(required)** \_\_\_\_\_

## **ANESTHETIC SAFETY:**

- **Pre-anesthetic Blood Screen**

This testing will insure that your pet is in a low risk category during anesthesia by ruling out internal problems that *may not be evident physically*, but could lead to complications. Highly recommended for pets of any age. **The fee for these tests is \$55.00.**

**I authorize** above testing **(required if 6 yrs or older)** \_\_\_\_\_  
**I do not authorize** above testing \_\_\_\_\_

- **IV Safety**

Intravenous catheter & fluids is the standard of care for all human anesthetic procedures & is advised in our pets to increase safety, protect vital organs, & speed anesthetic recovery. It is recommended for any age & required for pets 10 years of age or older. This is offered at a **discounted fee of \$59.**

**I authorize** above IV safety **(required if 10 yrs or older)** \_\_\_\_\_  
**I do not authorize** above IV safety \_\_\_\_\_

## **SURGICAL EXTRACTIONS & OTHER PROCEDURES:**

Frequently oral surgery is required to extract teeth that are not easily removed. **Surgical extractions can range from \$70 to \$185 per tooth.** In the event that more involved procedures are required than authorized above or on estimate (oral surgery of deep rooted teeth, filling of cavities, etc.), I authorize the veterinarian to do one of the following: **Please check only one:**

- A. Do whatever is deemed to be in my pet's best interest.
- B. Try to reach me at my number below, but if unable, do what's deemed in my pet's best interest.
- \*C. Do not do more extensive procedures without contacting me. **If you check this box we may not be able to do everything needed if we can't reach you during the anesthesia. This may require an additional anesthesia at a later date.**

**Your contact phone # during procedure** \_\_\_\_\_ (Usually between 9:00 AM & 1:00 PM)

Owner \_\_\_\_\_ Pet \_\_\_\_\_ Date \_\_\_\_\_

Signature of Owner or Authorized Agent \_\_\_\_\_
